INTRODUCTION

The need to build environmental, social, and governance (ESG) principles into business operations is stronger than ever. Stakeholders want transparency, sustainability, and ethical behavior from companies.

As a forward-thinking Employer of Record (EOR), Global Expansion (GX) is ready to help you on this journey toward ESG excellence. We're committed to the principles of the [United Nations Global Compact \(UNGC\)](#), making us a reliable partner in achieving your ESG goals.

THE UNITED NATIONS GLOBAL COMPACT AND GX'S COMMITMENT

The UNGC is a voluntary initiative encouraging companies worldwide to adopt sustainable and socially responsible policies and report on their implementation. It is based on ten principles covering human rights, labor, the environment, and anti-corruption.

GX's alignment with the UNGC demonstrates a strong commitment to these worldwide standards, setting a foundation for ethical business practices, environmental stewardship, and societal contribution.

ADVANCING ESG THROUGH UNGC PRINCIPLES

1 Embedding Sustainability into Core Business Operations

GX uses the UNGC's environmental principles to assist you in embedding sustainability in your business operations. By adopting strategies prioritizing energy efficiency, waste reduction, and sustainable resource use, GX guides you in minimizing your ecological footprint.

This commitment not only aids in compliance with increasing regulatory demands but also positions you as a leader in environmental management, enhancing your brand reputation and stakeholder trust.

2 Promoting Social Responsibility

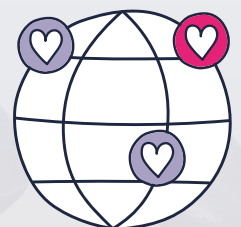

By following the UNGC's labor and human rights principles, GX promotes social responsibility among its clients. This includes ensuring fair labor practices, supporting diversity and inclusion, and enhancing employee well-being.

GX's expertise in global HR practices enables you to manage the complexities of international labor standards, creating a culture of respect, equity, and social contribution.

3 Upholding Governance Integrity

The UNGC's principles on anti-corruption are integral to GX's approach to upholding governance integrity. By supporting clear and accountable business practices, GX helps you set up robust governance frameworks.

This includes implementing policies that prevent corruption, ensuring compliance with international laws and regulations, and promoting ethical business conduct. Such efforts are critical for building investor confidence and securing sustainable growth.

04

THE GX ADVANTAGE: A STRATEGIC PARTNER ON YOUR ESG JOURNEY

GX's alignment with the UNGC principles provides you with a strategic advantage aiming to enhance your ESG performance. By partnering with GX, you can:

Achieve Measurable ESG Goals:

GX assists in setting clear, actionable ESG targets aligned with global standards, enabling progress tracking and reporting.

Enhance Risk Management:

Through comprehensive risk assessments, GX helps identify and lessen potential ESG risks, safeguarding against reputational damage and operational disruptions.

Drive Continuous Improvement:

GX's commitment to UNGC principles ensures that you are continually informed of emerging sustainability trends and best practices, enabling ongoing ESG enhancement.

Demonstrate Leadership:

By working with GX, you align with the UNGC's globally recognized principles and demonstrate a commitment to leading in sustainability, social responsibility, and ethical governance to your stakeholders.

05

LEAD THE WAY IN ESG EXCELLENCE

In a world where ESG considerations are becoming central to business success, GX's role extends beyond that of an EOR.

By embracing the UNGC principles and integrating them into its service offering, GX empowers you to manage the complexities of ESG compliance and leadership. This partnership approach drives sustainable business practices and fosters a culture of integrity, responsibility, and innovation.

As you strive to align your operations with global sustainability goals, GX is a pivotal partner, guiding you toward achieving ESG excellence and contributing to a more sustainable and equitable world.
